4. The defendant fails to provide a proper setting for the use of Ketamine by his patients;

5. The procedures and protocol of the defendant create a clear and continuing danger to the health, safety and welfare of citizens of the State of Oklahoma;

6. It is imperative to the protection of the health safety and welfare of citizens of the State of Oklahoma that the license to practice medicine and surgery in this state be suspended until this matter can be heard by the Board of Medical Licensure and Supervision.

2. By virtue of the provisions of the Oklahoma Medical Practice Act, the Secretary of the Board has the power and jurisdiction to order an emergency suspension of a license at such times as is imperatively required for the protection of the public health, safety and welfare.
