Defendant.)

OKLAHOMA STATE BOARD OF
MEDICAL LICENSURE & SUPERVISION

Case No. 99-01-2062

INTERIM ORDER AND AGREEMENT REINSTATING THE SUSPENDED
LICENSE OF JEFFREY SCHIMANDLE

COMES ON for consideration the Defendant's Motion for Order Dissolving Temporary Order Issued May 27, 1999. Upon a review of the evidence, the Board Secretary finds as follows:

1. The medical license of Jeffrey H. Schimandle, license no. 19233, shall be reinstated at the time that all parties enter into an agreement allowing the monitoring of Defendant prior to a full hearing before the Board, as evidenced by their signatures of approval of this Order.

2. Review of the records and the assessment from Menninger's Clinic in Topeka, Kansas establishes that there is not a reasonable likelihood that Defendant poses a threat to public health, safety and welfare at this time. Review of the records from Rush, Talbott-Marsh and Springbrook establish that the hearing scheduled before the Board should proceed and that the terms of the proposed agreement are necessary.

3. The terms of the agreement are as follows:

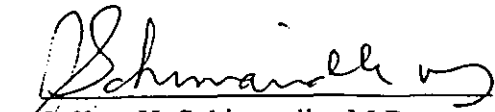

- a. Defendant will continue with his twice weekly urine screens currently being tested and will furnish the results of all tests to the Oklahoma State Board of Medical Licensure and Supervision (the "Board"). The results may be used as evidence at the scheduled hearing.

- b. Defendant will allow the collection of bodily fluids upon the request of any representative of the Board.
- c. Defendant will not possess, handle or administer any controlled dangerous drugs, and in an abundance of caution, will refrain from carrying syringes, used or unused, in his clothing. He may order the administration of controlled dangerous substances by licensed health professionals and may prescribe controlled dangerous substances.
- d. Defendant will allow Board representatives to determine that the terms of this agreement are being followed.

4. An admonition is given at this time. This decision in no way guarantees or implies what the Board will decide after considering all evidence presented. It does not reflect on the proof or the lack of proof of the allegations contained in the Complaint. The full range of disciplinary actions is available to the Board as they may choose. The decision of the Board Secretary merely reflects that in his opinion, no immediate danger to the public exists. The decision does not reflect whether or not violations of the medical practice act or the rules may have occurred in the past.

Dated this 14 day of October, 1999.

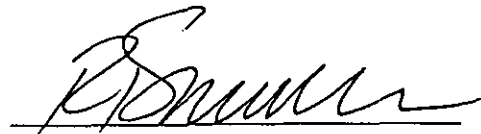

GERALD C. ZUMWALT, M.D., Secretary
Oklahoma State Board of Medical
Licensure and Supervision

Jeffrey H. Schimandle, M.D.
