Dear Dr. Willis:

At the last meeting of the State Board of Podiatry, the letter from your attorney, Mr. Graham, was discussed.

Since the three years specified in your probation have been fulfilled and no other complaints have been received concerning your prescribing practices, the Board wishes to remove your probation as soon as you submit documentation of completion of a course in pharmacology as specified in the probation settlement.

I will give this my immediate attention when I receive your submission.

Sincerely,

John E. Morehead, D.P.M.
